I. INTRODUCTION

FY 2024 UPWP PURPOSE

The Unified Planning Work Program (UPWP) is a federally required document that communicates to the public and stakeholders how their federal transportation planning dollars will be used on regional planning activities over the coming Fiscal Year.

The current federal regulation that guide MPOs in developing a UPWP include 23 CFR 134 (a) & (f); 49 USC 5303(a) & (b); 23 CFR 420.109; 23 CFR 450.308; and 49 CFR 613.

This FY 2024 UPWP was prepared by the Owensboro-Daviess County Metropolitan Organization (MPO), c/o the Green River Area Development District (GRADD), which serves as staff to the Owensboro-Daviess County MPO. This work program covers a one-year period, beginning July 1, 2023, and ending June 30, 2024. It details the transportation planning activities, planning tasks, timelines and products that meet the federal requirements for Owensboro and Daviess County. It also outlines expenditures attributed to individual work elements and the funding sources to be used.

The UPWP contains several uniform elements that accomplish these items:

- Provides a management tool and guidance for the conduct of transportation planning studies, as part of the requirements of the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA).
- Provides a list of funding amounts and breakdowns for each transportation planning element.
- Details the various agencies participating in the MPO process.
- Outlines those activities to be undertaken during FY 2024.
- Describe the completion timelines and products to be produced for each work element.
- Includes discussion of the planning priorities facing the MPO.
- Lists who will perform the work.

TRANSPORTATION LEGISLATION

On November 15, 2021, President Biden signed the Infrastructure Investment and Jobs Act (IIJA) (Public Law 117-58, also known as the "Bipartisan Infrastructure Law") into law. The Bipartisan Infrastructure Law is the largest long-term investment in our infrastructure and economy in our Nation's history. It provides \$550 billion over fiscal years 2022 through 2026 in new Federal investment in infrastructure, including in roads, bridges, and mass transit, water infrastructure, resilience, and broadband. MPO Staff, in coordination with USDOT and KYTC, will initiate efforts to carry out each of the planning directives thoughtfully and thoroughly for the on-going transportation planning process and will consider the directives with all current MPO documents. Staff will also coordinate with FHWA, FTA, KYTC, and other MPOs to work toward full implementation of Performance Based Transportation Planning and Programming (PBPP) requirements.

PLANNING EMPHASIS AREAS

The Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) jointly issued updated Planning Emphasis Areas (PEAs) in the Infrastructure Investment and Jobs Act (IIJA) passed on November 15, 2021. These PEAs are for metropolitan planning organizations, State departments of transportation, Public Transportation Agencies, and Federal Land Management Agency counterparts to identify and develop tasks associated with the Unified Planning Work Program and the Statewide Planning and Research Program. These eight updated PEAs should be addressed through the planning efforts of the MPO:

- Tackling the Climate Crisis Transition to a Clean Energy, Resilient Future
- Equity and Justice 40 in Transportation Planning
- Complete Streets
- Public Involvement
- Strategic Highway Network/U.S. Department of Defense Coordination
- Federal Land Management Agency Coordination
- Planning and Environment Linkages
- Data in Transportation Planning

PLANNING FACTORS

The metropolitan transportation planning process shall be continuous, cooperative, and comprehensive (3C); and provide for consideration and implementation of projects, strategies, and services that will address the following planning factors:

- 1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
- 2. Increase the safety of the transportation system for motorized and non-motorized users;
- 3. Increase the security of the transportation system for motorized and non-motorized users;
- 4. Increase the accessibility and mobility of people and for freight;
- 5. Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns;
- 6. Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
- 7. Promote efficient system management and operations; and
- 8. Emphasize the preservation of the existing transportation system.
- 9. Improve the resiliency and reliability of the transportation system and reduce or mitigate storm water impacts of surface transportation; and
- 10. Enhance travel and tourism.

LIVABILITY PRINCIPLES

The Owensboro-Daviess County MPO has adopted and continues to implement the six "Livability Principles" set forth in the 2009 coordinated policy of the U.S. Department of Transportation, U.S. Department of Housing and Urban Development, and the U.S. Environmental Protection Agency. These livability principles are:

- I. Provide more transportation choices;
- 2. Promote equitable, affordable housing;
- 3. Enhance economic competitiveness;
- 4. Support existing communities;
- 5. Coordinate and leverage federal policies and investment; and
- 6. Value communities and neighborhoods.

THE AGENCIES AGREE AS FOLLOWS:

The Green River Area Development District is the designated staff agency for the MPO, serving Owensboro – Daviess County, Kentucky. The City of Owensboro is the recipient of Federal Transit Agency funds designated for the urbanized area. The Owensboro Transit System is a department of the City of Owensboro.

The MPO, in cooperation with KYTC and OTS, is responsible for metropolitan planning for Owensboro – Daviess County. The MPO will coordinate with the Green River Intra-County Transit System (GRITS) for paratransit service planning issues as needed.

Performance-Based Transportation Planning and Programming

The MPO will develop and carry out a performance-based metropolitan transportation planning process in cooperation and consultation with KYTC and OTS for the City of Owensboro and Daviess County.

- KYTC, the MPO and OTS mutually agree to share available data related to performance measurement and target setting with each other, subject to the policies and procedures of each agency. Examples of such data include, but are not limited to traffic counts, travel times/speeds, socioeconomic data, transit ridership data and infrastructure condition measures.
- The MPO will plan and program projects that contribute to the achievement of KYTC's statewide performance targets and/or commit to quantifiable performance targets for the metropolitan planning area or any portion thereof.
- KYTC will notify the MPO as soon as practicable upon the establishment and/or modification of its performance targets.
- The quantifiable performance targets to which the MPO chooses to commit must be approved by the MPO Policy Committee and reported to KYTC within 180 days of the establishment of statewide performance targets by KYTC.
- The MPO will incorporate relevant goals, objectives, and performance measures and targets developed by KYTC and OTS into the transportation plans, programs and processes of the MPO.

Metropolitan Transportation Plan (MTP)

In cooperation and coordination with KYTC, OTS and other agency partners, the MPO will develop and maintain a Metropolitan Transportation Plan (MTP) in compliance with all relevant laws and regulations. The MPO shall review and update the transportation plan at least every five years to confirm the transportation plan's validity and consistency with current and forecasted transportation and land use conditions and trends, and to extend the forecast period to at least a 20-year planning horizon.

- The MPO will initiate, in consultation with KYTC, OTS and other agency partners, the selection of projects to include in the MTP. The initial list of MTP projects will be confirmed, supplemented by or revised by public input received during the public comment period of the MTP. The MPO will receive and address all comments and include documentation as part of the MTP.
- KYTC will provide the MPO with sufficient details, including location, description and cost for projects proposed or endorsed by KYTC for inclusion in the MTP.

- At the discretion of the KYTC, the MPO will be provided with cost estimates for projects proposed by the MPO and/or other project sponsors.
- At the request of the MPO, KYTC will provide preliminary system-level estimates of costs necessary to adequately operate and maintain the Federal-aid highway system within the planning area. The MPO may adjust these preliminary cost estimates with KYTC concurrence.
- At the request of the MPO, KYTC will provide available information on historic levels of transportation expenditures for Owensboro Daviess County and the state of Kentucky; an estimate of current typical annual transportation spending at the state level; an estimate of the annual construction cost inflation rate over the time horizon covered by the MTP; and an estimate of the annual rate of change of transportation spending over the life of the MTP. The MPO may adjust the annual construction cost inflation rate based on local conditions. Upon agreement with KYTC, the MPO may also adjust the annual rate of change of transportation spending.
- The MPO is responsible for developing a financially reasonable MTP in consultation with KYTC, OTS and other agency partners, and will be in compliance with current federal planning regulations set forth by the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA).
